SOFTWARE CONTROL DECLARATION

The company requesting the regulatory configuration binaries ("Host Product Manufacturer") declares to acknowledge and accept the following Panasonic terms.

1. Terminology

"Modular Transmitter" hereafter refers to any of the PIDEU radio modules containing a modular transmitter with the FCC ID: **T7V9019** and IC: **216Q-9019**.

"Host product" hereafter refers to any product by the Host Product Manufacturer where the Modular Transmitter is integrated.

"Affiliated companies" means any corporation or other legal entity that controls, is controlled by or under common control with Panasonic Holdings Corporation.

"Files" hereinafter refers to the Binary Package.zip and its contents provided by PIDEU

"Authorized Partner(s)" hereinafter refers to subcontractors and cooperation partners of the Host Product Manufacturer

2. Parties Responsibilities

PIDEU is the Modular Transmitter manufacturer and grantee of the applicable regulatory approvals for the Modular Transmitter. PIDEU tests and calibrates the Modular Transmitter before shipment. PIDEU provides the regulatory configuration binary after this declaration has been signed.

The Host Product Manufacturer is the company responsible for integration the Modular Transmitter into the host product and, by this declaration, is subject to the terms of use and restrictions of the Modular Transmitter as provided hereunder.

3. Declaration of commitment

The Host Product Manufacturer agrees to ensure that all host products referring to the FCC ID or IC certification number of the Modular Transmitter placed on the market by the Host Product Manufacturer follow the rules and configuration according to the radio module Integration Guide and Product Specification provided on:
PAN9019: https://pideu.panasonic.de/development-hub/pan9019/downloads/
PAN9019A: https://pideu.panasonic.de/development-hub/pan9019a/downloads/.

The respective latest edition is applicable.

4. Indemnification

The Host Product Manufacturer shall indemnify Panasonic, and its Affiliated Companies, and their respective directors, officers, employees, agents, successors and assigns and shall defend and hold all and each of the Indemnitees harmless from and against all claims, demands, suits, actions, liabilities, judgments, losses, damages, injuries or costs and expenses (including reasonable attorneys' fees and costs of litigation) arising from or in connection with a breach of the requirements under this Software Control Declaration.

5. Confidentiality

Any provided Files under the conditions of this declaration (e.g. 'REGD Binary Package.zip' and its contents) shall exclusively be used in conjunction with the Modular Transmitter provided by Panasonic. Under no circumstances shall the Host Product Manufacturer distribute, disclose, or disseminate the Files independently of the Modular Transmitter in any way or form to third parties except to its own employees and/or Authorized Partners. The Host Product Manufacturer shall treat the Files with the same degree of care that it applies to its own confidential information of similar importance, but with no less than reasonable care, to avoid unauthorized disclosure to any third parties.
